

# PIKE ST TO BE ONE-WAY EASTBOUND BETWEEN 1ST AND BELLEVUE AVENUES

As early as Saturday, November 18, **we will permanently remove westbound vehicle access on Pike St between Bellevue Ave and Terry Ave / Hubbell Pl to make Pike St a one-way, eastbound street.** By switching to one-way streets east of 9th Ave now, we will make more space for ongoing construction of new sidewalks, curbs, markings, and traffic signals and ultimately, a safer and more pleasant experience for all users. Westbound bike travel on Pike St will remain during construction until further notice.

Map of upcoming work area and vehicle access changes.

## WHAT TO EXPECT ON PIKE ST BRIDGE OVER AND EAST OF I-5

### PEDESTRIAN, BICYCLIST AND VEHICLE ACCESS:

- Westbound vehicle access on Pike St between Bellevue Ave and Terry Ave / Hubbell Pl will be permanently removed, Pike St between 1st and Bellevue avenues will be one-way eastbound for vehicle traffic
- Westbound bike travel will remain during construction until improved routing is established
- Detours may be used for all modes of travel; follow signs, signals and directions from officers for safe access through the area
- Pedestrian access will be maintained at all times
- Access for businesses and residences will be maintained at all times
- Bicyclists may be routed differently on the same street or detoured at times while improvements to the bicycle lane are constructed
- Bus stop and route impacts will be shared by King County Metro, check out their service advisories for more information

### WORK ZONE:

- Pike St between 9th and Bellevue avenues

### SCHEDULE AND HOURS:

- Work hours typically Monday through Friday, 7 AM to 5 PM
- Any necessary overnight and weekend work will be communicated in advance

### PARKING AND LOAD ZONES:

- Parking restrictions will be in place, as needed; signs will be present
- Load zones may be temporary relocated as needed
- Access to garages and alleys on Pike St will be maintained

### EQUIPMENT AND NOISE:

- Expect construction equipment and vehicles moving in and out of the work zone
- Construction trucks and equipment may be noisy, with the most significant noise coming from breaking and removing roadway pavement
