

# CLOSURE OF LENORA PEDESTRIAN BRIDGE FOR CONSTRUCTION OF NEW ELLIOTT WAY

As early as December 18, Waterfront Seattle will expand its work area north of Pike Street in the footprint of the former viaduct to begin construction of the new Elliott Way. This road over the railroad tracks and carved into the hillside, will be a key connection between Alaskan Way and Belltown.

Activities include establishing the work zone, mobilizing equipment, locating utilities, and removing asphalt and

landscaping. In addition, we plan to replace the eastern segment of the Lenora Pedestrian Bridge in order to meet the appropriate grades of the new Elliott Way sidewalk and roadway. The Port of Seattle plans to perform maintenance activities on the elevator here. All of these activities require closure of the Lenora pedestrian bridge, including elevator access, starting as early as January 2. Work is anticipated to take 2-3 years.
